PROFESSIONALSUMMARY

Results-driven Python Developer with 1 year of experience in building AI-powered applications, including LLM-based chatbots and voice assistants. Skilled in Machine Learning, Retrieval-Augmented Generation (RAG), and Natural Language Processing (NLP). Strong foundation in backend development, data structures, and scalable AI systems. Passionate about leveraging Artificial Intelligence to solve real-world problems.

TECHNICALSKILLS

Programming Languages: Python, Java (Basic), SQL
Web Technologies: HTML, CSS, JavaScript, React.js ,Nodejs
AI/ML & NLP: Machine Learning, Deep Learning, NLP, LLM, RAG
Libraries/Frameworks: NumPy, Pandas, Matplotlib, scikit-learn, Librosa, Tkinter
Tools & Platforms: Git, Jupyter Notebook, VS Code, Basic AWS, Antigravity **Core Concepts:**
Data Structures & Algorithms (DSA), Operating Systems

PROFESSIONALEXPERIENCE

Dilshaj Infotech — Python Developer / Full Stack Developer (AI/ML) **- 1 year**

- Developed and maintained EduProva, a full-scale e-learning platform, using React.js for the frontend and Next.js/FastAPI for backend services, delivering a scalable and responsive user experience.
- Designed and integrated REST APIs, database operations, authentication, and business logic to support scalable, secure application workflows across the platform.
- Engineered an AI-powered chatbot and voice assistant using Large Language Models (LLMs), RetrievalAugmented Generation (RAG), NLP, and speech-to-text technologies, improving response accuracy by 30– 40% over baseline models.
- Integrated MongoDB for application data management and optimized API and database operations, improving overall system performance and efficiency by 20%.
- Applied prompt engineering techniques and optimized AI retrieval pipelines, reducing average response latency by 25–35% and improving overall response quality.

PROJECTS

EduProva–AI Learning Management System
Developed a full-stack AI-based Learning Management System using React.js, FastAPI, Python, and mangodb Implemented authentication, attendance, task management, and AI-powered learning modules.

LLM Chatbot & Voice Assistant (EduProva)
Built an LLM-based chatbot with RAG for intelligent question answering and document retrieval. Integrated Speech-to-Text and NLP to enable voice-based interactions

Task Management Application
Developed a task management system for assigning, tracking, and monitoring employee tasks. Implemented secure REST APIs and real-time task status updates using React.js and FastAPI.

WebService Classification Using Semi-Supervised MachineLearning (AcademicProject)
Developed an SSL-based QoS web service classification model using CatBoost, XGBoost, and Random Forest. Improved classification accuracy through dynamic thresholding and semi-supervised learning.

FREELANCE & INDEPENDENT PROJECTS

NRK Travels – Travel & Cab Booking Website
Developed a responsive travel and cab booking website to showcase travel services, cab booking, and tour packages with user-friendly navigation.

Seedha Properties – Real Estate Mobile Application
Developing a real estate mobile application for property buying, renting, and property management using React Native and NestJS. Implementing property listings and search functionality.

EDUCATION

Master of Computer Applications (MCA)
Jawaharlal Nehru Technological University, Kakinada | 2023 – 2025 | CGPA: 8.0

Bachelor of Science (BSc)
Sri Chaitanya Degree & PG College, Vizianagaram | 2019 – 2022 | CGPA: 7.6

Intermediate (MPC)
Narayana Junior College, Vizianagaram | 2018-2019 | CGPA:8.89

Secondary School Certificate (SSC)
Bhavani Vidyaniketan, Boddavalasa, Vizianagaram | 2017-2018 | CGPA: 8.8

CERTIFICATIONS

- Python for Data Science, AI &Development –IBM
- Python Crash Course – Udemy

ACHIEVEMENTS

- Solved 65+ problems on CodeChef **https://www.codechef.com/users/deep_deed_86**

HOBBIES

- Physical Fitness •

  Playing Sports
